Forever May You Run

Gavin Rossdale

Take it easy on yourself
Take it easy on yourself
The silent sounds of yesterday
The ghost of you dancing in the hallway
Lunar to base, let's get this on
The kids have gone mad
They've been insane all along
Forever may you run, forever may you run
Forever may you run
Forever may you run, forever may you run
Forever may you
You don't deserve to get lost
Soon will come, the waves will stop
The still of the night
Silhouettes in the half light
May your struggles all be won
Lunar to base, let's get this on
The kids have gone mad
They've been insane all along
Forever may you run, forever may you run
Forever may you run
Forever may you run, forever may you run
Forever may you run, forever may you
I'm walking until the end
I got nowhere left to go
I got so in-between
Didn't make it to the disco
The president's in bed
They're trying to find the king
Buddha he was busy
Jesus wasn't in
There is snow over the road
We'll have to wait before we go
So let the heat come in
Where you end I begin
Forever may you run, forever may you run
Forever may you run
Forever may you run, forever may you run
Forever may you run, forever may you run, run, run, run

You did it all to yourself
