Everything

Ezra Henderson

Let's go
So this is what it's like to be used?
Tell me I'm the greatest and then turn me loose?
Don't you see what you put me through, yeah?
Do you know how much you ask of me?
Stressing out, I'm tryna be just what you need.
I'd still like to keep my dignity, yeah

And I got nothing to lose
Except everything
And I need no one but you
So I'll do everything, everything for you
(Everything, everything) do everything, everything for you

You're always just a step out of reach
Feels like I'm dancing with the enemy
Will there ever be a promise you can keep, yeah?
You're taking all my energy
And I still don't know what you want from me
Can't let you take my identity, yeah.

And I got nothing to lose
Except everything
And I need no one but you (no one but you)
So I'll do everything, everything for you, yeah
(Everything, everything) do everything, everything for you, woah
I'll do everything, everything for you
(Everything, everything) do everything, everything for you, oh
So I'll do everything, everything for you.
