

Tomorrow When You Die

Carter the Unstoppable Sex Machine

Tomorrow when you die, they'll break the mold
Shut down the sky, the sun will turn cold
They'll close the parks and when they read your will
The moon will go dark, the earth will stand still
Your days are numbered
From one to one hundred
Tomorrow when you die
Will be day one hundred and five
Tomorrow when you die, they'll break the mold
Shut down the sky, the sun will turn cold
As cold as ice
Tomorrow when you die
Tomorrow when you die
Tomorrow when you die
As cold as ice

Songwriters

Leslie George Carter; James Neil Morrison
