

Hang Myself From the Tree

The Vandals

Advisory - the following lyrics contain explicit language:

Christmas is hell on earth, I know nothing worst - then being depressed and told to be happy. - The season of suicide, I know why they died - Christmas reminds me I have nothing - I've got no girl there's only me - no friends or family, another Christmas alone - Got no food to eat, no ornaments or wreath - so I'll hang myself from the tree - Christmas is dark and wet, so I can't forget - Christmas reminds me I have nothing - this is the end of hope, I won't write a note - because it would be addressed to no one - I've got no girl there's only me - no friends or family, another Christmas alone - Got no food to eat, no ornaments or wreath - so I'll hang myself from the tree - Now I will say good-bye, no one will cry - Christmas goes on without me - My life is now complete, so I'll go to sleep - Forever and ever and ever... - I've got no girl there's only me - no friends or family, another Christmas alone - Got no food to eat, no ornaments or wreath - so I'll hang myself from the tree
