

Baby, It's Fact

Hellogoodbye

Just in case they're wondering
They've got us pinned terribly
They don't believe our love is real
Cause they don't know how real love feels

You should know
its true, just now
The part about my love, for you, and how
My hearts about to burst into a thousand pieces
So it must be true
And they'll believe us too soon.

Baby, its fact
Our love is true
The way black is black
And blue is just blue
My love is true
Its a matter of fact
Oh and you love me too
Its as simple as that
Baby, our love, is true

They may say some awful things
But there's no point in listening
Your words are the only words
That I believe in afterwords

You should know
Its true, just now
The part about my love, for you, and how
My hearts about to burst into a thousand pieces
So, it must be true
And they'll believe us too soon

Baby, Its fact
Our love is true
The way black is black
And blue is just blue
My love is true
Its a matter of fact

Oh, and you love me too
It's as simple as that
Baby our love, is true

Its true
Ohh
Its true
Ohh
Its true
Ohh

Baby, its fact
Our love is true
The black is black
And blue is just blue
My love is true
Its a matter of fact
Oh, and you love me too
Its as simple as that

Baby its fact
Our love is true
The way black is black
And blue is just blue
My love is true
Its a matter of fact
Oh, and you love me too
Its as simple as that

Baby, its fact
(Our love)
Our love is true
(Our love)
Baby, its fact
Our love is true
Whoa, whoa
(Baby, its fact)
Oh, our love is true
(Oh, baby it fact)
(Our love)
(Baby, its fact)
(Our love..)
Our love, is true
