

# Make It Last

## Montrose

Well, I remember when I was seventeen,  
My father told me, pick your dreams  
He said life ain't easy as it seems  
When you get older you'll see what I mean  
At the time, I wanted to be twenty-one  
It seemed the right age for havin' fun  
But when I got there I was still too young  
And twenty-five seemed to be the one  
But now I live my life from day to day  
'Cause I wouldn't have it any other way  
Whether I'm twelve or whether I'm sixty-four  
I spend my time like there ain't gonna be no more  
You know that sweet girl you've been chasin' round  
She got you hooked 'long as she keeps you down  
Well, I know what happens once she comes around  
It won't be long and you'll be back on the town  
But now I live my life from day to day  
I wouldn't have it any other way  
Whether I'm twelve or whether I'm sixty-four  
I spend my time like there ain't gonna be no more  
Lord, yes alright  
Things between, they suit you right  
But once you get them it seems like they're all alike  
So make it last as long as you can  
It's so much easier when you understand  
But now I live my life from day to day  
I wouldn't have it any other way, no, no  
Whether I'm twelve or whether I'm sixty-four  
I spend my time like there ain't gonna be no more  
Oh alright  
Keep on rolling, come on, make it last  
Keep on rolling, right on now yeah  
Right on down (keep on rollin')  
Make it last (keep on rollin')  
As long as you can (keep on rollin')  
Keep on rollin'  
Come on  
Keep on rollin'  
Come on, make it last (keep on rollin')  
As long as you can  
You got to make it last (keep on rollin')  
And last, and last and last, last and last  
Keep on rollin', rollin', rolling' right on down (keep on rollin') (rollin', rollin')
