

# Is That A Tear

Tracy Lawrence

Last thing I expected was to get her call tonight  
'Cause the last thing that I heard from her was she found Mr. Right  
But when I came home this evening there it was on my machine  
Now I'm just wondering what the hell it means  
Said she's sorry that she missed me and she's been doing fine  
I've run it back and heard her say those words a hundred times  
But something makes me wonder is she happy with her choice  
Or is that a tear I hear in her voice  
First time that I listened, I thought boy she's got some nerve  
But the second time I heard it, I heard more than just her words  
Am I just wishful thinking or did her voice really crack?  
I'll never know if I don't call her back  
Said she's sorry that she missed me and she's been doing fine  
I've run it back and heard her say those words a hundred times  
But something makes me wonder is she happy with her choice  
Or is that a tear I hear in her voice  
Oh is that a tear, Lord, is that a tear I hear in her voice
