Alo Lee

[Verse 1]
You're gonna need to do better
I'm gonna need you to take it where you haven't before
You always talk like you're somethin'
But you'll never show me
I need you to control me[Pre-Chorus]
I try to meet you all the way
But you don't wanna play[Chorus]
And I know (show me what you see)
All the videos (that ain't what you need)
You keep searchin' but I know she isn't me
But I know
About the videos, about the videos[Verse 2]
You're gonna need to do better
I'm gonna need you to tell me where you want it to go
We're always doing the same thing
You don't even know me
I need you to control me[Pre-Chorus]
Just say what you wanna say
But you don't wanna play[Chorus]
And I know (show me what you see)
All the videos (that ain't what you need)
You keep searchin' but I know she isn't me
But I know
About the videos, about the videos[Bridge]
Fading, falling apart
Fading, falling apart
But you don't wanna play[Chorus]
And I know (show me what you see)
All the videos (that ain't what you need)
You keep searchin' but I know she isn't me
But I know
About the videos, about the videos
