Groove

This Ascension

there the scene is right
shaded by eerie light
face and figure lean
white on white on the screen
see my face, see my sin
love you've gained, soul to win
up at night, rant and rave
obsession follows to the grave
don't ever be, don't ever be
don't ever be obsessed like me
posters, magazines
they all know your name
loved by all the teens
how's your flirt
with fame?
devotion is hard to tame
such a nasty game
but I'll wait "All Night Long"
just like in the song
