

# Fill In The Blank

## Car Seat Headrest

[Introduction] Verse 1:

I'm so sick of (fill in the blank).

Accomplish more. Accomplish nothing.

If I were split in two I would just take my fists,

So I could beat up the rest of me. Chorus:

You have no right to be depressed,

You haven't tried hard enough to like it,

Haven't seen enough of this world yet,

But it hurts, it hurts, it hurts.

Well stop your whining. Try again.

No one wants to cause you pain,

They're just trying to let some air in

But you hold your breath, you hold your breath

You hold it.

Hold my breath, I hold my breath

I hold it. [Instrumental] Verse 2:

I've known for a long time

I'm not getting what I want out of people.

It took a long time

To figure out I don't know what I want.

So you'll ask why?

And there will be no answer.

Then you'll ask for how long?

And there will be no answer.

Then you'll ask what can I do?

And there will be no answer.

And eventually you will shut up. Chorus:

You have no right to be depressed,

You haven't tried hard enough to like it,

Haven't seen enough of this world yet,

But it hurts, it hurts, it hurts.

Well stop your whining. Try again.

No one wants to cause you pain,

They're just trying to let some air in

But you hold your breath, you hold your breath

You hold it.

Hold my breath, I hold my breath

I hold it. Verse 3:

I get signs

From the Cops  
Saying 'Stay the fuck down.'  
I get signs  
From the Audience  
Saying 'Stay the fuck down.'  
I get signs  
From God  
Saying 'Stay the fuck down.'[Instrumental]Chorus:  
(I've got a right to be depressed  
I've given every inch I had to fight it.  
I have seen too much of this world, yes  
And it hurts, it hurts, its hurts.  
And I will never see the light,  
That I've shining in your eyes.  
You just want to see me naked  
So I'll hold my breath, I'll hold my breath,  
I'll hold it...)
