

# You Love Me To Hate You

## Kiss

You tell lies when you look at me, smile when you look away  
Spin a web any fool can see, put your candy on display  
It's a game of who needs who, who's on top, me or you  
Pleasure and pain feel the same when the night is through  
Girl you want me to cry, feel like I'm gonna die  
Girl you want me to bleed, feel the thrill of my need  
Girl you want me to bed, wish to hell I was dead  
'Cos you love me to hate you, yeah you love me to hate you  
Girl you love me to hate you and the more that I hate you I love you  
You're like a cat on my hot tin roof, I love  
it when you scratch and bite  
You got my heart in a hangman's noose, pull the rope and make it tight  
Love's like a chain holdin' you to me, you're the lock baby I'm the key  
Don't wanna walk 'cause we're caught in a fantasy  
Girl you want me to cry, feel like I'm gonna die  
Girl you want me to bleed, feel the thrill of my need  
Girl you want me to bed, wish to hell I was dead  
'Cos you love me to hate you, yeah you love me to hate you  
Girl you love me to hate you and the more that I hate you I love you  
It's a game of who needs who, who's on  
top, me or you  
Pleasure and pain feel the same when the night is through  
Girl you want me to cry, feel like I'm gonna die  
Girl you want me to bleed, feel the thrill of my need  
Girl you want me to cry, feel like I'm gonna die  
Girl you want me to bed, wish to hell I was dead  
'Cos you love me to hate you, yeah you love me to hate you  
Girl you love me to hate you and the more that I hate you I love you  
'Cos you love me to hate you, yeah you  
love me to hate you  
Girl you love me to hate you and the more that I hate you I love you  
And the more that I hate you, I love you  
And the more that I hate you I love you  
Yeah and the more that I hate you, I love you  
And the more that I hate you I love you  
And the more that I hate you, I love you  
And the more that I hate you I love you
