

What's Your Name?

Jesse McCartney

Oh, oh, uh, uh, ahh I turn around, you're there again
And suddenly you're gone
I wanna get to know you
But I don't know who you are And you're the kinda girl
Who makes me start to lose my mind
I wanna get together
But you're oh, so hard to find I see ya when I'm at the Star bucks
As you're walkin' out the door
I see when I'm rentin' movies
When you're leavin' the store I need an opportunity
There's somethin' I wanna ask
I never seem to ever get the chance What's your name? What's your name?
Oh, I really wanna know
You got me goin' crazy
And I want you more and more
Oh, hey, this could be somethin' real
I've gotta let you know the way I feel What's your name? What's your name?
Oh, I really wanna know
'Cause every time I get there
But it's right before you go
Oh, hey, if only you could see
I wanna get to know you
And to get you knowin' me Whoa, I see you at the mall
You're hangin' out with all your friends
I ready, gonna make my move
You go before I get the chance You know you got me trippin'
Thinkin' 'bout you day and night
But I can't get to know you
If you don't know I'm alive I seen you at the beach
You know you're loadin' up the car
I seen you when I'm at the concert
Then the lights go dark There's somethin' I gotta find out
If I'll ever get the chance
There's only three words I wanna ask What's your name? What's your name?
Oh, I really wanna know
You got me goin' crazy
And I want you more and more
Oh, hey, this could be somethin' real
I've gotta let you know the way I feel What's your name? What's your name?

Oh, I really wanna know
'Cause every time I get there
But it's right before you go
Oh, hey, if only you could see
I wanna get to know you
And to get you knowin' me Oh, oh, yeah, no, no, no
Oh, now wait up, ahh
Well, oh, no, don't go away now
Too late I missed your name, girl
Oh, no, don't go please
'Cause I'm the one you need, yeah Oh, no, don't go, I've got to
Tell you how bad I want you
All I need is the chance
I never get the opportunity to ask What's your name? What's your name?
Oh, I really wanna know
You got me goin' crazy
And I want you more and more
Oh, hey, this could be somethin' real
I've gotta let you know the way I feel What's your name? What's your name?
Oh, I really wanna know
'Cause every time I get there
But it's right before you go
Oh, hey, if only you could see
I wanna get to know you
And to get you knowin' me What's your name?
Oh, I really wanna know
You got me goin' crazy
And I want you more and more
Oh, hey, this could be somethin' real
I've gotta let you know the way I feel What's your name? What's your name?
Oh, I really wanna know
'Cause every time I get there
But it's right before you go
Oh, hey, if only you could see
I wanna get to know you
And to get you knowin' me What's your name?
What's your name, girl?
Oh, oh, yeah, that's it
Ladies goodnight
