

Public Display of Dismemberment

Slayer

Anarchy, disarray, this is the world today
Justice is a lie for the followers to get by
No peace, only guns, can't trust anyone
Live or die, it's an eye for an eye Unrest, martial law, society decays
And it's safe to say there is no other way
With lawless arrogance and savage dissidents
Public display of dismemberment Blameless innocent, lies of the decadent
Brazen hypocrites answering to idiots
New tax, market crash, high life never lasts
No quick fix for broken politics Unrest, martial law, society decays
It's safe to say that there is no other way
With lawless arrogance and savage dissidents
Public display of dismemberment Aftermath of tolerance judgment is defined
Individual pain is a strong incentive
Infiltrate with fear keeping penance ever near
Punish with indecency and mutilate for all to see Disarray, no quick fix for broken politics
Anarchy, live or die, it's an eye for an eye Unrest, martial law, society decays
It's safe to say that there is no other way
With lawless arrogance and savage dissidents
Public display of dismemberment
