Lonely

Crystal Bowersox

I've got something that I must confess
My little heart is racing in my chest
But I gotta get used to this, I guess
'Cause your love is moving meI don't know how but I lost my cool
I'm like a kid jacked up on sugar
In a nursery schoolYou swept me off my feet
And then I fell for you
I'm hooked on you, it's true, hmmNow that I know
That lonely won't come around
No, no, no
Lonely won't come aroundSince I laid my burdens down
Lonely won't come around
Lonely won't come around
Yeah, hehI felt like a flame trapped on the glass
But then you lift me up
The dark is in the pastSo let's face time
And make the sunshine last
Forever you and me
With our song stuck gonna beSinging I feel like a little child
My hands of free will running wild
And I am flying sixty off the groundAnd now that I know
That lonely won't come around
No, no, no
Lonely won't come aroundSince I laid my burdens down
Lonely won't come around
Lonely won't come around
YeahOh, eh, oh, oohHmm
Now that I know
That lonely won't come around
Oh, no, lonely won't come aroundSince I laid my burdens down
Lonely won't come around
Lonely won't come aroundOoh, lonely won't come around
Ooh, lonely won't come around
HmmSince I laid my burdens down
Lonely won't come around
Lonely won't come around
Yeah, hmm
