

# If You Still Love Her

Miki Howard

You say that you miss me  
How I wish those words were true  
But your arms are never here to hold me  
When my heart gets lonely  
Your words make me confused

First you said she was just a convenience  
A place to stay  
Now you say that you shared so much more  
Oh, when will you stop  
Playing games with my heart

If you still love her  
Why are you leading me around?  
If you still want her  
Your love will only bring me down

You say that Iâ€™m evil  
And Iâ€™m much too hard on you  
But all you ever seem to give me  
Are bittersweet memories  
I wonâ€™t be a fool

If you still love her  
Why are you leading me around?  
If you still want her  
Your love will only bring me down

If you still love her  
Why are you leading me around?  
If you still want her  
Your love will only bring me down

First you said she was just a convenience  
A place to stay  
Now you say that you shared so much more  
Oh, when will you stop  
Playing games with my heart?

If you still love her

Why are you leading me around?  
If you still want her  
Your love will only bring me down

If you still love her  
Why are you leading me around?  
If you still want her  
Your love will only bring me down

(instrumental solo)

If you still love her  
Why are you leading me around, oh baby?  
If you still want her  
Your love, your love, your love, will only bring me down, baby
