Lonely Pair

Greg Trooper

You got your feelings hurt
Once again when you got home from work
Well, you know I did too
I got 'em hurt by youWe yelled like little kids
At the stupid little things, we both did
And I made you cry
Then punched the skyWe let it go on so very long
Pretending like there's nothin' wrong
We both moved underground
And forgot about the love, we once foundYou work your fingers numb
From before the dawn to the setting sun
I've gone away somewhere
We make a lonely pairYou got your feelings hurt
And now you don't know, what would be worse
Livin' separately
Or just unhappilyThere might be somethin' we didn't try
We could talk about the way, we both feel inside
Tears might fall, tempers fly
We might try to get acquainted before we say goodbyeYou got your feelings hurt
Once again you got home from work
You know I did too
I got 'em hurt by youWell, you know I did too
I got 'em hurt by you
