

# Nothing

## Janet Jackson

There's something I wanna say  
Something I've been holding back  
    Can't let it go another day  
    Let me start by saying that  
        Nothing, nothing  
Nothing means more than the truth  
    And truth is that I realize  
    Love is fading from your eyes  
    Don't know how it came to this  
    But we gonna get it fixed tonight  
        'Cause nothing, nothing  
    Nothing is worth losing you  
    Tell me what could the problem be  
    That's got you drinking way too much  
        What could it be 'bout us?  
Don't you tell me, "Not right now", I can't let it go  
    (I can't let it go, no, I can't let it go, oh no)  
        What can I do to help you see  
    That there's no need for jealousy or insecurities?  
        I'll do anything you want  
    You can even have the password to my phone  
        Because nothing, nothing  
        Should come between us  
            Trust in me  
            Trust in me  
        Cherish every moment  
            Like it's the last  
            Trust in me  
            Trust in me

If your issue is with trust  
    Hear me when I tell you this  
    No one else has shared my love  
    No one else has had your kiss  
        Nothing, nothing  
    Nothing can make me forget, no  
        Forget that you're a good man  
    And I know that you've had it hard  
        'Cause you're more than adequate

You're more than I wish for  
Nothing, nothing  
Nothing can make you any less  
Tell me what could the problem be  
The past is something I can't change, it's a brand new day  
Don't you tell me, "Not right now"  
I can't let it go  
(Can't let it go, no, I can't let it go, oh no)  
We've got to fix this, fix this right this minute  
Only pure love can calm the noise  
'Cause baby, when we give pure love  
Pure love will never come back to us void  
Because nothing, nothing  
Should come between us  
Trust in me  
Trust in me  
Cherish every moment  
Like it's the last  
Trust in me  
Trust in me
