

# On Purpose

Sabrina Carpenter

Your eyes, crashing into my eyes  
Was accidentally falling in love  
Your words, didn't mean to hear but heard  
Were coincidentally more than enough All these days I never thought  
That I would need someone so much, who knew?  
But I don't think I ever planned  
For this helpless circumstance with you You're scared, I'm nervous  
But I guess that we did it on purpose  
On purpose, on purpose Baby, I know it's weird, but it's worth it  
'Cause I guess that we did it on purpose  
On purpose, on purpose But I guess that we did it on purpose  
But I guess that we did it on purpose My dreams running into your dreams  
It's as if we wished on the same star  
And my time changing all of your time  
It's a butterfly effect on my heart All these days I never thought  
That I would need someone so much  
Who knew?  
But I don't think I ever planned  
For this helpless circumstance  
With you You're scared, I'm nervous  
But I guess that we did it on purpose  
On purpose, on purpose Baby, I know it's weird, but it's worth it  
But I guess that we did it on purpose  
On purpose, on purpose On purpose  
But I guess that we did it on purpose  
But I guess that we did it on purpose Lost in darkness  
You're my focus  
Love me hopeless  
But I guess that we did it on purpose Lost in darkness  
You're my focus  
Love me hopeless  
Oh, you're scared You're scared, I'm nervous  
But I guess that we did it on purpose  
On purpose, on purpose Baby, I know it's weird, but it's worth it  
'Cause I guess that we did it on purpose  
On purpose, on purpose Lost in darkness  
You're my focus  
Love me hopeless  
But I guess that we did it on purpose Lost in darkness

You're my focus  
Love me hopeless  
But I guess that we did it on purpose
