

# And So It Goes

## Last Tuesday

And so it goes, and you know, this life is hard sometimes  
And so it goes, and you know, this place is not my home  
And just when you think your ship will never sink  
Everything comes crashing down on you  
And dont be surprised, when you cant believe your eyes  
And its wrong, theres nothing you can do  
I'm sick of this place cause it always stays the same  
But ill finish the race cause I care to help it change
