Born to Fly

MC YOGI

Now down by the body you can find by the mind
Beyond the constrain of space and time
Now down and around like downtown floor
Spread my wings and i will soar
I'm gonna fly my way home
Say: we're gonna fly our way home
Say,say: we were born to fly, spread your wings and touch the sky
You know: we were born to fly, spread your wings and touch the sky
I will never die, spread my wings and i will fly
Like a bird up in the sky you know that am gonna fly so high
I'm gonna fly
I'm gonna fly
I'm gonna fly
We're gonna fly our way home
We're gonna fly our way home
We're gonna fly our way home

Above the ground, above the clouds
Down at the ground i can see my house
I can feel the wind blow through my hair as i rise into the air
When it's time to say good bye, leave this world behind
I'm gonna close my eyes and go inside
Spread my wings and then i rise
Just like a bird you know i fly so high

I'm gonna fly my way home
We're gonna fly our way home home
Say: we we're ... Refrain like above

I saw my love is like a dove
If i spread my wings and fly above
Just like a bird up in the sky
You know that i will fly
I'm gonna fly my way home

From city to city and shore to shore
Lift your feet up off the floor
From east to west from south to north
Lift your feet up off the floor

We're gonna fly home
Say: we we're ... Refrain like above
