

Feelin' Purple (Soul Clap Remix)

Navid Izadi

You've got me red in the face
Your ice is critical contained

.....

You got me feeling kinda purple
I wanna grab the mic and sing
You've got me feeling like a prince
I really love the way we do our thing

You got me feeling kinda purple
I wanna grab the mic and sing
You've got me feeling like a prince
I really love the way we do our thing

I'm so discombobulated
I don't even know my name
You've got my dancing round my room
Playing my air guitar like I'm insane

You got me feeling kinda purple
I wanna grab the mic and sing
You've got me feeling like a prince
I really love the way we do our thing

You've got me red in the face
But you're feeling blue, blue
You're feeling blue
I'm feeling kinda purple purple
Red blue and purple
Feeling blue feeling blue purple purple
Red blue and purple purple
Red blue Red blue and purple purple
Red blue Red blue and purple purple
I'm feeling kinda purple purple
I wanna grab the mic and sing
