

# Better With You

Kris Allen

Wherever I go  
Whatever I do  
Stay by my side  
'Cause baby it's always better with you In the middle of the pouring rain  
On a crowded subway train  
When I'm just about to go insane  
You make it go away  
Monday morning in a traffic jam  
And I'm going to be late again  
The world is getting underneath my skin  
I see you smiling  
And know that it's going to be okay Wherever I go  
Whatever I do  
Stay by my side  
'Cause baby it's always better with you  
Girl when I'm alone  
You're where I belong  
'Cause baby it's always better with you  
Oh oh  
Baby it's always better with you You make a bad day better than good  
You make me feel better than I should  
You understand when I misunderstood  
Like no one else ever could  
And girl you show me things I never see  
If you were never there to see them with me  
And when I get a little too crazy  
You are my sanity  
And everything will be okay Wherever I go  
Whatever I do  
Stay by my side  
'Cause baby it's always better with you  
Girl when I'm alone  
You're where I belong  
'Cause baby it's always better with you  
Oh oh  
Baby it's always better with you Girl it doesn't matter where we go  
'Cause you always make it feel like it's home  
When I'm with you  
Oh oh oh Wherever I go

Whatever I do  
Stay by my side  
'Cause baby it's always better with you  
Girl when I'm alone  
You're where I belong  
'Cause baby it's always better with you Wherever I go  
Whatever I do  
Stay by my side  
'Cause baby it's always better with you  
Wherever I go, whatever I do  
You're where I belong  
Baby it's always better  
It's always better with you.
