

# Where Are We Going from Here

## Blackmore's Night

Advisory - the following lyrics contain explicit language:

On a long road, miles to go  
It's winding and cold and it's covered with snow  
But I ask you what we all want to know  
Where are we going from here? Lines on my face, lines on my hands  
Lead to a future, I don't understand  
Some things don't go as they're planned  
Where are we going from here? Tracing the trails through the mirrors of time  
Spinning in circles with riddles in rhyme  
We lose our way, trying to find  
Searching to find my way home  
Trying to find my home As the day dies, with tears in our eyes  
There's too few hellos and too many goodbyes  
Silence answers our cries  
Where are we going from here? We're all on this road, with miles to go  
Braving new pathways into the unknown  
But who do you ask, when no one really knows  
Where we are going from here? Tracing the trails through the mirrors of time  
Spinning in circles with riddles in rhyme  
We lose our way, trying to find  
Searching to find our way home  
Trying to find my way home Please help me find my way home  
Please help me find my way home  
Please help me find my way home
