

# Thing for You

Jann Arden

I feel like you know me  
I know well, I know, I know you do  
I've got this thing going on inside my head  
I've got this thing for you I like your face, I like your body, I like your feet, I like your nose  
I like your chest beneath the covers, I like your heart, I like your soul  
I like your life inside me pounding like a heart inside a dream  
Inside a dreamer that's been dreaming of a perfect symphony I like the way you walk beside me, like a paper in  
the wind  
The way you swing your arms so gladly  
Where you end and I begin, I like everything  
About you, baby, I do I feel like you know me well  
I've tried to let you see me for yourself  
I feel like I'm, I'm out of my head  
I've got this thing for you I like your face, I like your body, I like your feet, I like your nose  
I like your chest beneath the covers, I like your heart, I like your soul  
I like your life inside me pounding like a heart inside a dream  
Inside a dreamer that's been dreaming of a perfect symphony I like the way you walk beside me, like a paper in  
the wind  
The way you swing your arms so gladly  
Where you end and I begin, I like everything  
About you, baby, I do I like your face, I like your body, I like your feet, I like your nose  
I like your chest beneath the covers, I like your heart, I like your soul  
I like your life inside me pounding like a heart inside a dream  
Inside a dreamer that's been dreaming of a perfect symphony I like the way you walk beside me, like a paper in  
the wind  
The way you swing your arms so gladly  
Where you end and I begin, I like everything  
About you, baby, I do
