

# Two of Us

## Tweet

The two of us  
Just you and me  
The two of us  
Just you and me Let me tell you this  
You are my inspiration  
'90 was a good year  
Through all of this show biz  
You were patient  
You are the star, my dear The two of us  
Just you and me  
The two of us  
Just you and me {Ladies and gentlemen, my daughter, Tashawna  
Sing baby} If I had one wish  
When I'm through growing  
To be just like you especially  
And through all of this show biz  
You didn't know it  
It would benefit me The two of us  
Just you and me  
The two of us  
Just you and me You have my nose  
I wear your clothes  
And oh, can't no one come between we  
Let everyone know  
It's okay to show  
Let it show just what you mean to me, to me The two of us  
Just you and me  
The two of us  
Just you and me The two of us  
Just you and me  
The two of us  
Just you and me The two of us  
Just you and me  
The two of us  
Just you and me
