Landscape

Rupert Hine & David Maciver

"Move over Oscar", said the Scarecrow
As the black sheep passed his smile
I've got no time to waste in talking
Got to keep my eyes on the sky
'cause the birds are coming
Move over Oscar
'cause the birds are coming

Nothing around here ever changes
So's you'd notice
Didn't I see you smile?
How does it feel
to be painted in motion?
Landscape, you and I
Roll the world into
a ball of silver paper
see it shine
An open world
See it shine

Spending time lying beside you
Looking above where the sky was
Spending time feeling the earth
Looking above where the day was
Spending time, touching your hair
Looking above where the sun ....

Say blue
say you want to go away
Say blue
say you feel like the sea
just for a day
Say blue, say you want
to lap on someone else's shore
