Strange Lover

Julie Miller

I got no use for what you say
I ain't your straight man no more today
Take your promise out with the trash
From now on boy we just take cashThe cows lay down when it's gonna rain
You come around and it's a hurricane
You say it's bad luck baby but I know it's cocaineBlood is red money is green
Sugar is sweet and you are mean
You were my angel at the start
But your strange lover took away your heartThe cows lay down when it's gonna rain
