

Precious Thing

Cian Finn

Life it is a precious thing

Life is such a precious thing

Life it is a precious thing so be good in what you bring (x2)

Â

Got to make good use of it

Create a dream and pursue it

See the clear truth that exists

With this life that we are all so blessed

Difference of opinion all free to express

Never on another should someone oppress

Donâ€™t put your friends patience to the test

Hold precious your happiness and give thanks for the utmost gift.

and we say

Life it is a precious thing

Life is such a precious thing

Life it is a precious thing so be good in what you bring (x2)

so precious

so say

Got to make good use of it

Create a dream and pursue it

See the clear truth that exists

With this life that we are all so blessed

Difference of opinion all free to express

Never on another should someone oppress

Don't put your friends patience to the test

Hold precious your happiness and give thanks for the utmost gift.

and we say

Life it is a precious thing

Life is such a precious thing

Life it is a precious thing so be good in what you bring (x2)

so precious
