

# Get Seduced (LAZRtag Remix)

## The Faint

Tabloid magazines are made in hell  
The falling stars are getting sucked down  
We get seduced easy  
We get  
We get seduced Sell us magazines about the stars  
And watch us stare into the void  
What not to wear to the awards  
Whose tit escaped on camera now  
These creeps are climbing up the trees  
The neighbor's calling the police  
And snapping pictures by the pool  
We get seduced so easy Check out clerks all thumbing towards the page  
An A-list starlet shaved her brains  
While starving millionaires complain  
TV makes your ass fat Tell us,  
How rad is it living in a microscope?  
Broadcast into every single living room  
Hot lights on your love life  
Let me buy close up tabloid shots of your cellulite Hypnotizing pages of advice  
From their demented fashion do's or dies  
Who put this hook inside my mouth? ...you  
You're getting so obsessed, it's all you talk about  
We're gossip hounds on the couch How rad is it living in a microscope?  
Broadcast into every single living room  
Hot lights on your love life  
It's not love, that's sex on the first night How rad is it living in a microscope?  
Broadcast into every single living room  
Hot lights on your love life  
Let me buy  
Close up tabloid shots of your cellulite
