## Sodom

Euthanasia or amnesty  
Takes you off the ground  
Embrace your hopes  
And pray to them  
When your smile turns upside down  
Silent noise in sleepless nights  
Freeze your mind and blood  
Think about your morbid life  
Is there any god? No postponement  
Death by the law  
At zero hour  
Stops your beating heart  
Your days are numbered  
Your fate is sealed  
When the bell rings twelve o'clock  
Waiting for the message  
No governor's reprieve  
These guys just doing their job  
No postponement  
Death by the law  
At zero hour  
Stops your beating heart  
You have to live on charity  
Not die a natural death  
That brings your life so close  
Of your own wrongful act  
Come on man  
It's time to go  
Deliverance not so far  
TV covered  
Millions wait  
Tonight you are the star
