Sodom

Euthanasia or amnesty
Takes you off the ground
Embrace your hopes
And pray to them
When your smile turns upside down
Silent noise in sleepless nights
Freeze your mind and blood
Think about your morbid life
Is there any god? No postponement
Death by the law
At zero hour
Stops your beating heart
Your days are numbered
Your fate is sealed
When the bell rings twelve o'clock
Waiting for the message
No governor's reprieve
These guys just doing their job
No postponement
Death by the law
At zero hour
Stops your beating heart
You have to live on charity
Not die a natural death
That brings your life so close
Of your own wrongful act
Come on man
It's time to go
Deliverance not so far
TV covered
Millions wait
Tonight you are the star
