Paralysed

Ride

Catch me in another dream, I'm pulled away
Hold me gently, take me through another dayHowever hard I try
I crawl when I should fly
I wander through my days
Pulled a million waysHelp me feel the forces I can't touch
I'm reaching out
Help me learn, until I know too much
I'm still withoutThese circles pulling me near
Hold me in my fear
And sleeping I can't hide
I'm paralysed inside
Paralysed
