This Is Love

Jennie Cathcart & David Feldstein

The first time I saw you I knew... a spark I couldn't undo not even if I wanted to and in this moment I saw my life past before me and I knew that it was love ohhh love come on lets find a way I'll paint you a sky for a rainbow, come on lets find a way (find a way home)

And now when I look in your eyes it's funny how time doesn't fly is life all about second chances held in this moment I see our dreams coming true and I know this is love (ohhhh this is love) come on lets find a way (find a way home) I'll paint you a sky for a rainbow come on lets find a way, find a way home, find a way home ... ohhhhh
