

# Waved On

## Engineers

Standing still  
But you've had your day  
Had the face  
But you won't staySlowed down, weighed down  
Right into me, it's not right  
Waved on, helped on  
Right into you, goodbyeRead your mind  
But you have your needs  
Hopeless times  
But you are so pleasedSlowed down, weighed down  
Right into me, it's not right  
Waved on, helped on  
Right into you, goodbyeSlowed down, weighed down  
Right into me, it's not right  
Waved on, helped on  
Right into you, goodbye[Incomprehensible]
