Our Darkness

Richard Hawley

Evening shadows fade
I turned to my true love
She has the strength to say
The words that I cannot
In darkness, our darkness
So heartless, this darkness
I'm lost here in the gray
Awaiting for your returning
I watch them while I play
Flames flicker with my yearning
For darkness, our darkness
So heartfelt, this darkness
Through streets and avenues
Will you come back to your lover?
The place for me and you
Is here with no other
In darkness, our darkness
So heartfelt, this darkness
My arms they open up for you
[Incomprehensible] through
We talk of understanding
We talk of love
The evening shadows change
I turned back to my true love
She has the strength to say
The words that I cannot
In darkness, our darkness
So heartfelt, our darkness
So heartless this darkness
Our darkness, in darkness
We talk of love
