

# Night Of The Snakes

## Krokus

I'm a hot blooded man, girl I know you like how I am  
And I'm gonna sit back close to you again  
Rushes through my body, quivers up my spine  
This feeling when I see your curves of desire Your gentle looks can kill, so full of lust within  
Let me caress your flesh, unveil your passion, turn you on  
It's the night of the snakes X-rated scenes ahead, time to put the kids to bed  
Explore the mysteries of our bodies  
Release some tension from this moral flesh  
Lick one hundred beads of sweat You are the one for me, your passion sets me free  
I'm glad you feel the same, I love to hear you, call my name
