

Hymn

Front 242

One of us is waiting, one side of us waiting
Some of us are striving somewhere on a mountain
One part of us keeps giving away, giving away, giving away And disorder must come and disorder must reign
Every minute will count when disorder is king One of us is waiting, one more number's waiting
Where's your revolution plan? Where's your need
To make a stand, to finalize, to synchronize? One stand, one stand together, one stand, one stand
To hang the standard high, the standard high Where's your revolution plan? Where's your need
To understand, to find more time, to find more time? And disorder must come and disorder must reign
Every minute will count when disorder is king One of us is waiting, one side of us waiting
Where's your revolution plan? Where's your
Leading upper hand to guide your life, to guide your life? One stand, one stand together, one stand
One stand to hang the standard high, the standard high And disorder must come and disorder must reign
Every minute will count when disorder is king
