

# Woe Is Me (1997 Remastered Version)

[Helen Shapiro](#)

Its me  
How can it be  
I never thought that you will ever leave And now that you are gone  
And you walked out the door  
I'll never see you no more  
No never no more I told you lies  
that brought tears to your eyes  
I thought you will forgive me I never realised I got you so bad  
That it made you so mad Left here without you Oh woe is me
