# Always Be On Your Side

## Shane Nicholson

You come out swinging again
Up on a wind and down on a friend
It's a fine dayIt gets so cold in here
You burn up in the atmosphere
For a fine day, a fine, fine dayNever need to hide
All your outlaw pride
'Cause I'll always be on your sideYou're out in the great unknown
Legends don't live in the comfort zone
On a fine dayYou're a symphony no one hears
The best-laid plans and the big ideas
For a fine day, a fine, fine dayNever need to hide
All your outlaw pride
'Cause I'll always be on your sideAny time on any day with anyone
I know what you are
Every time on everyday with everyone
I know what you are
And I love what you are, alrightNever need to hide
All your outlaw pride
'Cause I'll always be on your side
And I'll always be on, always be on your side
