

# Forest Fire

## The Amity Affliction

Advisory - the following lyrics contain explicit language:

I'm standing by the riverside  
Dreaming, oh come save me now  
I'm feeling like I can't escape  
Screaming, love come pull me out All this darkness inside me  
Well, I'm the creator of this loneliness I feel, I'm the creator  
The earth heats inside of me  
And there's forest set to light  
So this passion can burn! Like a forest fire  
It burns like a forest fire Lost in a winter storm like wolves  
With no stars to use as guides. We're still breathing, we're the lucky ones  
The weeping willows turn the banks  
Where the rivers used to run  
So still sway with the breeze  
But don't fall down to your knees I'm standing by the riverside  
And I'm dreaming, oh come save me now  
I'm feeling like I can't escape  
And I'm screaming, love come pull me out We've lived in shadows now  
For far too fucking long  
Pull the wool from your eyes  
Throw the darkness away  
We won't exist on your grounds  
For the rest of our days We're still breathing, we're the lucky ones  
The weeping willows turn the banks  
Where the rivers used to run  
So still sway with the breeze  
But don't fall down to your knees I'm standing by the riverside  
And I'm dreaming, oh come save me now  
I'm feeling like I can't escape  
And I'm screaming, love come pull me out I'm standing by the riverside  
And I'm dreaming, oh come save me now  
I'm feeling like I can't escape  
And I'm screaming, love come pull me out All this darkness inside me

Well, I'm the creator of this loneliness I feel, I'm the creator  
The earth heats inside of me  
And there's a forest set to light  
So this passion can burn Like a forest fire  
It burns like a forest fire  
It burns like a forest fire  
It burns like a forest fire
