

# Come And Get It

## Eli "Paperboy" Reed

If you want the love of a man,  
    Come and get it (baby)  
If you want the love of a man,  
    Come and get itIf you want the love of a real good man  
    Come and shout me  
    I make you understand  
    Don't you just look  
    Come and take it  
    Cause what i've got  
You know you can't fake it[chorus]  
    If you want the love of a man,  
        Come and get it  
    If you want the love of a man,  
        You got to get with it  
    If you want the love of a man,  
        Come and get it  
    If you want the love of a man,  
        You got to get with itListen  
Remember girl, i've been around the block  
    My legs are shied, but I won't stop  
    It's your turn to make a choice  
    Don't just sit there girl  
Stand up to raise your voice[chorus]  
    If you want the love of a man,  
        Come and get it  
    If you want the love of a man,  
        You got to get with it  
    If you want the love of a man,  
        Come and get it  
    If you want the love of a man,  
        Come and get it  
You want to get with itAll my love came tumbling downQuite playing games  
    Beat around the bush  
    All that love really needs is  
    Just a little pitty push[chorus]  
    If you want the love of a man,  
        Come and get it  
    If you want the love of a man,  
        You got to get with it  
    If you want the love of a man,

Come and get it  
If you want the love of a man,  
You want to get with it
