

Big Sky

The Warratahs

Big sky, I?m gonna hurt you
Big sky, you?ll remember this
 Big sky, up above the rain
How can I ever put a stop to it
 Look you in the face again?
Big sky, I?ll never let you go
 Big sky, baby, I told you so
Big sky, look at this swollen pride
 I got so busy looking out for you
 When were you by my side?
When I?m breathing, when I?m sleeping
 I can think of nothing else
 All my longing, all my waiting
 All the things you never felt
 All my weeping, all my wailing
 All my standing on the shelf
How am I ever gonna get through this
 Back to myself again?
 Big sky, I never knew you
 Big sky, let me down again

Big sky, giving you the blame
How can I ever put a stop to this
 Look you in the face again?
When I?m breathing, when I?m sleeping
 I can think of nothing else
 All my longing, all my waiting
 All the things you never felt
 All my weeping, all my wailing
 All my standing on the shelf
How am I ever gonna get through this
 Back to myself again?
 Won?t you say it isn?t so
 Watch me falling, see me falling
 I slip through the vortex of the sky
 Darkness and light
 It?s what?s inside
 Darkness and light
 It?s what?s inside
