Lullaby

Chester See

It's you and me
Stars and moon keep us company
They watch over us as we fall asleep
I will hold you closeSo lay your head down on my pillowcase
Close your eyes and feel my warm embrace
Cause in my arms you know you will be safe
And I won't let you goSo baby let my heart beat, beat
The rhythm that puts you to sleep
My smile will be the first thing you see
When you wake upWhen you wake up
When you wake upSo dream with me
Hold my hand escape reality
Let my love be your calvary
I will hold you closeDon't you worry I'll be by your side
I promise I'll here all though the night
I comfort you into the morning light
And I won't let you goSo baby let my heart beat, beat
The rhythm that puts you to sleep
My smile will be the first thing you see
When you wake upSo baby let my heart beat, beat
The rhythm that puts you to sleep
My smile will be the first thing you see
When you wake upSo baby let my heart beat, beat
The rhythm that puts you to sleep
My smile will be the first thing you see
When you wake up
