

Honey Of Generation

Seven Mary Three

What your mother say?
Never listen to me?
I know you want back in
You don't get it for free Did you better read the book
And hear what they say
Never learn the rules
And sit up straight Liquid used to surround me
My freedom, swimming and drowning
Today we throw it up for sale
Today we're giving it away It's the honey of generation
Makes you forget where you came from
It's the honey of generation
Makes you forget, makes you forget What your daddy say?
You never listen to me?
I know you're trying hard
you don't get a reprieve Never read good book
Never bid good time
Did you push ahead?
I bet you stood the line Liquid used to surround me
My freedom, swimming and drowning
Today we throw it up for sale
Today we're giving it away, yeah It's the honey of generation
Makes you forget where you came from
It's the honey of generation
Makes you forget, makes you forget It's the honey, it's the honey, it's the honey
And it,s yours
