

# Walk Away

## Burden Brothers

It's just like you to ruin every happy situation

When things were right you had to make them wrong and always did

I finally got strong enough to pack it in and walk awayWalk away, walk away, leave your side today

Walk away, walk away, leave it all todayIt's never easy for someone to go through separation

Ironically, you know I love you and I always will

As I look back though, I have no regrets for leaving you that dayYou know I followed my heart through all my  
decision-making

You wanted to but didn't, so I leave you with this thought

Don't be afraid in any case to pack it in and walk away
