The Last Goodbye

Haste The Day

This is the last time of all the last times
This is the last time of all the last times
My dear no more, my dear no more
My dear no more, no more
Where's the comfort?
Where's the end?
This is the last time
This is the last goodbye
You say that you're not sure
But I think you feel the same
Over and over, we try to work this out
All this time, all I wanted was you
All I want is you
