

# Something for the Fire

Melanie C

In the morning I miss you  
But I won't go back  
Step off this train this one way track You're caught in the distance  
But I don't know why?  
When you justified your exit signs It don't matter  
Just a memory been and gone  
Nature carries on  
Pulling me along Something for the fire  
Something for the fire  
Something for the fire  
For the fire Something for the fire  
Something for the fire  
Something for the fire  
For the fire In a month of Sundays  
I could take you back  
You're in my rear view fading black Don't know my destination  
But I'm on my way  
Too long to get here  
From today It don't matter  
Just a memory been and gone  
Nature carries on  
Pulling me along Something for the fire  
Something for the fire  
Something for the fire  
For the fire Something for the fire  
Something for the fire  
Something for the fire  
For the fire And our love is burning in the flames never to return  
As the embers start to lose their glow turn to ash and go  
Turn to ash and go Something for the fire  
Something for the fire  
Something for the fire  
For the fire Something for the fire  
Something for the fire  
Something for the fire  
For the fire Something for the fire  
Something for the fire  
Something for the fire  
For the fire Something for the fire

Something for the fire  
Something for the fire  
For the fire In the morning I miss you but I won't go back  
Step off this train  
This one way track
