

# I Can Wait

## Deep Blue Something

Advisory - the following lyrics contain explicit language:

"I fear I can't go on", she said  
"I think I would be better dead"  
She knelt, she cried and I held her head  
I thought I knew what she was feelin'  
And I assisted in her suicide  
Now that she's on the other side  
I know what she was after And I  
I, I, I can wait  
Inside  
I, I, I can wait A cold and wet November's day  
We lowered her into a grave  
I had never seen her look so brave  
No worms consume her body And I  
I, I, I can wait  
Inside  
I, I, I can wait
