

# Discotech (FIFA 07)

## Young Love

Stepping out tonight, flying so high  
It's the good times keeping me alive  
Are you ready to hit it running?  
This is where it's at six in the morning[Bridge]  
You can fake this only if you take this  
(You wanna lose control, you wanna lose control)  
(You wanna lose control, you wanna lose control)  
The way she does it, I can't get enough  
The way she does it, I can't get enough[Chorus]  
Attack, we keep it on the dance floor  
Discotech, meet me at the back door  
Let's get down; we've been waiting a long time  
She's back; I can feel it in the air  
Discotech, you know she's going to be there  
Let's get down; we've been waiting a long time Show up in the crowd, take a look around  
Me and my crew - we came to get down  
She's giving me looks; I can't help it  
The way I'm feeling; it's going to happen[Bridge][Chorus] You make fast living, look just fine  
Looks like I got here just in time  
Tonight the city is yours and mine  
But it won't last forever[Chorus]
