Magic Colors

Lesley Gore

My days are darker than my nights
My world is black, there are no lights
My eyes are blind, I cannot see
Where's the world you lit for mePainted things, from the past
Are faded things that couldn't lastWhere are all the magic colors
That used to light my way
Where are all the magic colors
I must find those rainbows of yesterdayMy grass was green, the sky was blue
When I shared the world with you
But now the colors turned to gray
My rainbow world escaped awayShades of gray, shades of black
I'm so alone, I wanna go backBack to all the magic colors
That used to light my way
Where are all the magic colors
I must find those rainbows of yesterdayShades of gray and shades of black
I'm so alone, I wanna go backBack to all the magic colors
That used to light my way
Where are all the magic colors
I must find those rainbows of yesterdayWhere are all the magic colors
That used to light my way
Where are all the magic colors
